

SUMMARY

As a UI/UX designer, I focus on clarity and coherence. I refine complex systems into interfaces that feel intuitive, sustain immersion, and communicate cleanly. My process balances iteration with refinement, guided by conviction that every element has purpose.

SKILLS

Design: Wireframing, Prototyping, Interaction Design, User Research, Journey Mapping, Usability Testing
Technical: Figma, Unreal Engine, Unity, Blueprints, UI Materials/Shaders, C#, Miro, Perforce, Diversion, GitHub, Slack, Jira, ClickUp

PROFESSIONAL EXPERIENCE

UI Design Intern, Rogue Rooster

May 2025 – September 2025

Alice in Space | third-person, PvPvE, battle royale, extraction, space sim

Unreal Engine 5.6

- Implemented modular UI systems with C++ and Blueprints, prioritizing scalability, performance, and runtime precision.
- Produced a full UX flow in Figma and iteratively developed wireframes to guide diegetic interface design.
- Designed UI materials, custom icons and animated visual states to support clarity and readability.
- Refined HUD layouts and interaction logic to maintain cohesion across the player experience.

COLLEGIATE PROJECTS

UI/UX Designer

January 2025 – April 2025

Gambler’s Fallacy | isometric roguelike, poker-based combat, 10-person team

Unity 5

- Designed an interactive diegetic UI prototype in Figma that reinforced immersion and thematic consistency.
- Collaborated with programmers to deliver pixel-perfect Unity implementation aligned with gameplay systems.
- Produced custom icons, sprites, and HUD assets to establish a cohesive poker-inspired visual language.
- Developed a diegetic tutorial integrated into narrative flow, improving player onboarding and engagement.

UI/UX Designer

September 2023 – April 2024

Remanence | action-adventure, first-person melee combat, 18-person team

Unreal Engine 5.2

- Directed UI development in Figma, creating style guides that ensured thematic and consistent interfaces.
- Implemented interactive UI features in Unreal Engine Blueprints, delivering seamless user interactions.
- Conducted user research and applied findings to improve accessibility, readability, and player satisfaction.
- Collaborated with the UI Artist in iterative sprints, refining layouts and visuals based on playtest feedback.

UI/UX Designer

October 2023

Minecraft Inventory Redesign | independent project

- Conducted user research and playtesting with children to uncover usability challenges in Minecraft’s inventory system.
- Designed an optimized inventory layout in Figma, improving item categorization, accessibility, and readability.
- Created high-fidelity interactive prototypes to test navigation flows and refine interactions based on user feedback.

UI/UX Designer

September 2023

Course Planner Redesign | independent project

- Mapped user journeys to identify usability issues in DigiPen’s course planning interface and improve overall clarity.
- Redesigned the interface in Figma with hierarchical organization to enhance navigation and visual affordances.
- Simplified class search and registration workflows, increasing efficiency and accessibility for first-year students.

ADDITIONAL EXPERIENCE

Game Guide, Conundroom Escape Rooms

April 2022 – June 2025

Designed onboarding and training guides in Figma that documented escape room flow, narrative intros, and rules, effectively serving as game design documentation. Facilitated live player experiences while maintaining a 5-star rating across 100+ public reviews tied directly to my performance.

Art Studio Guide, Art Chaos

September 2022 – April 2023

Led visitors through experimental spin-art sessions by demonstrating techniques, offering tips and practice rounds, and tailoring feedback to each participant. Consistently maintained a 5-star rating across 50+ public reviews that highlighted the quality of the experience I delivered.

ACHIEVEMENTS & AWARDS

Best Presentation Winner, Map Masters: DigiPen x PUBG MOBILE

2025

Platinum Winner, GDC’s Game Narrative Review Competition

2024

Gold Winner, GDC’s Game Narrative Review Competition

2023

EDUCATION

DigiPen Institute of Technology

September 2021 – April 2025

Bachelor of Arts in Game Design, Minor in Art | GPA: 3.6
